

International/Akzo Salt

Watkins Glen, New York

Mechanical Integrity Tests

On April 10, 1990, Wells # 38, 41, 36 and 35 were tested together (gallery method), and Well # 39 was tested by itself.

On April 11, Wells # 42 and 40 were tested together, and Well # 51 was tested by itself.

The tests were conducted by Mike Schumacher, Akzo Salt, and Dermott Courtney, EPA, hung around and watched.

All wells passed.
